It has been a tremendous job, and the Secretary reported to the Cabinet that, although his experts have examined hundreds of cans of beef, they have not found a single one chemically treated or adulterated. The cans of beef were secured without knowledge of their designation, but taken at random. and the tests have been genuine ones. In speaking about the matter, the Secretary of Agriculture told the Department members that he had been taking a hand in this business and was not going to allow any one to injure our industries or export trade by making charges without having the Department of Agriculture make a thorough investigation. He had done this and was satisfied that the charges of embalmed or chemically treated beef were baseless, and he would have much court of inquiry.

A THANKLESS POSITION.

Bradley Does Not Want to Be Governor-Wouldn't Have the office as a Gracious Gift Under Present Conditions.

FRANKFORT, Ky., Feb. 7. - Gov. W. O. Bradley doesn't want to be governor again. In an interview he said: "Is is the most thankless position a man can occupy. I wouldn't have another 75 term under the prevailing conditions as a gracious gift. In addition to being continually abused by people out of and in the party with which the governor affiliates, he is as persistently annoyed by appeals for most unreasonable favors, and ever and anon is he beseeched by trusts and corporations for privileges which would enable them to more strongly grasp in their tentacles the suffering populace. Ex-Gov. John Young Brown was in my office at Frankfort, and I told him I had heard that he was again aspiring to the gubernatorial chair, and that for the life of me I could not see what be desired in the office. 'Just this,' he said. There are a lot of soreheads who don't want to see me governor again, and I would like to be governor for just one week to spite them.""

considerable money and three years time spent fooling with other Harrows to flud handles, trying to hold the Plow into Bracken county soil, two full years before out this. We give you the information gratis. This Harrow has thirteen discs- we found this out. You need not tell us your troubles with other Plows-how seven discs in one gang and six in the other. Throw the gangs in any position hard it is to hold into land-what a mean furrow it makes-how your points you please, on either side of the hill or any angle of a cross-cut and this seventh break-how the bolt in the point is eternally breaking-how you have to carry disc is always in the middle performing its work-positively and absolutely the Plow around the end-we have been all along the line. But our troubles all cutting out all the center. This Harrow has no neck weight, runs light and, ended when we bought a VULCAN! The Vulcan Point, Landside and Moldboard owing to the patent method of hanging the gangs, literally tears the ground all interlock-dovetail on to the Standard. You never break a bolt on a Vulcan to pieces. It is the strongest and best made Harrow on earth, weighing 625 Plow because the interlocking device takes all the strain off the bolts! We put pounds! We put out forty-four of them last Spring and they simply revolution- out last year 103 Vulcan Piows and never sold a single Moldboard. Vulcan Moldized the business. We can show you voluntary testimonials from the best farm- boards are ridged—the ridges are not chilled thus adding 40 per cent. to their strength. Owing to the peculiar shape of the Vulcan Landside it takes the land We have just received a carload of them and can name the lowest price on well and sticks. Why the Vulcan plows a fairly good furrow without the operator holding the handles!

FARM WAGONS! We experimented with FARM WAGONS eight years before we found one to suit us. At last we found 'way down in Alabama a factory who would build a Wagon the way we wanted it. We have the spokes made of butt cuts off twoyear old hickory hubs of Pennsylvania black birch-all woodwork dipped in hot linseed oil-swelled tires put on perfectly cold-boxings put in hubs without any wedges-ironed very heavy-built in proportion and perfectly balanced. This Wagon runs like a buggy! This Wagon is called FLORENCE after the town in which it is made. We have patent brake on this Wagon, hung from rods on both sides, thus bringing direct pressure upon each wheel in locking. We buy these Wagons in five carload lots and quote the lowest price on earth. ONLY \$37.00 for Two-horse Running Gear. ONLY \$47.25 for Two-horse Wagon complete with Bed, lazy-back Spring Seat, anti-spreaders, and Patent Brake-brake your Wagon from both right and left-hand side.
